|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| <b>How do Road Users in Mixed Traffic Perceive Risk Towards Each Other? A Comparative Study from a Developing Country</b><br>Khalisha Zahra & Nur Sabahiah Abdul Sukor                                                                                                                                                                                          | 559 |
| <b>Reducing Overall Active Power Loss by Placing Solar and Wind Generators in a Distribution Power System using Wild Horse Optimizer Algorithm</b><br>Chau Le Thi Minh & Minh Quan Duong                                                                                                                                                                        | 571 |
| <b>Design of Object Detection System for Tangkuban Parahu Volcano Monitoring Application</b><br>Maria Evita, Sekar Tanjung Mustikawati, Wahyu Srigutomo, Irwan Meilano & Mitra Djamal                                                                                                                                                                           | 583 |
| <b>Real-time Monitoring of Carbon Dioxide with IoT ThingSpeak using TiO2 Thick Film Gas Sensor</b><br>Siti Amaniah Mohd Chachuli, Wong Hui Ying, Nur Hazahsha Shamsudin & Omer Coban                                                                                                                                                                            | 593 |
| <b>Dry Sliding Wear Behavior of Cemented Carbide at Elevated Temperatures</b><br>Wan Fathul Hakim W Zamri, Azhari Shamsudeen & Muhamad Faiz Md Din                                                                                                                                                                                                              | 603 |
| <b>Numerical and Experimental Study of Seismically Excited Scaled Structure with Active Mass Damper</b><br>Herlien Dwiarti Setio, Pei-ching Chen, Sangriyadi Setio, Michael Felix Sinjaya & Cecilia Andriana                                                                                                                                                    | 613 |
| <b>Thermomechanical Analysis of Cement Hydration Effects in Multi-layered Pier Head Concrete: Finite Element Approach</b><br>Mohammad Ismail Ramadan Ahmad, Inggar Septhia Irawati, Ali Awaludin & Suprpto Siswosukarto                                                                                                                                         | 625 |
| <b>Aerodynamic Performance and Noise Characteristics of Modified Blade Tip of Small HAWT</b><br>Sigit Iswahyudi, Setyawan Bektu Wibowo, Suyitno Suyitno & Agus Suprihanto                                                                                                                                                                                       | 639 |
| <b>Drill Hole Spacing Analysis for Evaluation of Quartz Sand Resources as Residual Material from On-Land Alluvial Tin Processing based on Global Estimation Variance and Kriging Variance, with Case Study in the Bangka and Belitung Islands, Indonesia</b><br>Roby Mardiyana Safitra, Mohamad Nur Heriawan, Komang Anggayana, Rubiarto & Ichwan Azwardi Lubis | 652 |
| <b>Solvent-free Synthesis of Transition Metals Nanoparticles Decorated Foamy Flakes-like Nitrogen-doped Carbon as Bifunctional-catalyst for High-performance Rechargeable Zn-air Batteries</b><br>Pilar Bela Persada, Davin Adinata Tan, Rachendra Akmalia, Yuyun Irmawati & Afriyanti Sumboja                                                                  | 666 |
